Dedication

A Friday like all others, yet suddenly shocked into immortality. Rumors of the President being wounded in Dallas first started spreading around the CHS campus at 12:50 P.M.

Everyone filed into class as usual at 1:00 P.M. Then over the PA came the radio newscaster's report, "The President has been critically wounded in Dallas."

Even before Bro. Carol suggested it, classes began the beads for the wounded President, not yet believing that this could happen, that this had happened. After the beads, classes resumed as usual, but still in a half-stunned way.

It wasn't until 1:20 P.M. that the final shock was to hit: "The President is dead. John Fitzgerald Kennedy has been assassinated."

"...Let the word go forth from this time and place, to friend and foe alike, that the torch has been passed to a new generation of Americans—born in this century, tempered by war, disciplined by a hard and bitter peace, proud of our ancient heritage..."

JOHN F. KENNEDY, INAUGURAL ADDRESS
JANUARY 20, 1961

On the Centennial of the Gettysburg Address, Nov. 19, 1963, many speakers and writers throughout the United States were comparing John F. Kennedy's powerful oratory to that of Abraham Lincoln. Only three days later they were comparing their deaths.

John Fitzgerald Kennedy, the greatest leader and model youth has had, was ironically shot down by a youth. It is to this man that we, the Class of '64, dedicate this BRUIN. This book that will always be a remembrance of '64 can't help but bring back that sad moment of assassination. May we be that new generation of Americans to whom "the torch is passed."

Catholic High's faculty was drastically changed in '64. Six new Brothers and three new Coaches accounted for the new faces. Many of these new faces were familiar around C.H.S., however, because many were either former pupils or teachers at the old C.H.S.

FACULTY

Bro. Ralph, returning after an absence of 14 years, came from St. Stanislaus to be head basketball coach. Both Coach Murphy and Coach Arceneaux were C.H.S. grads, returning to familiar grounds as assistant coaches.

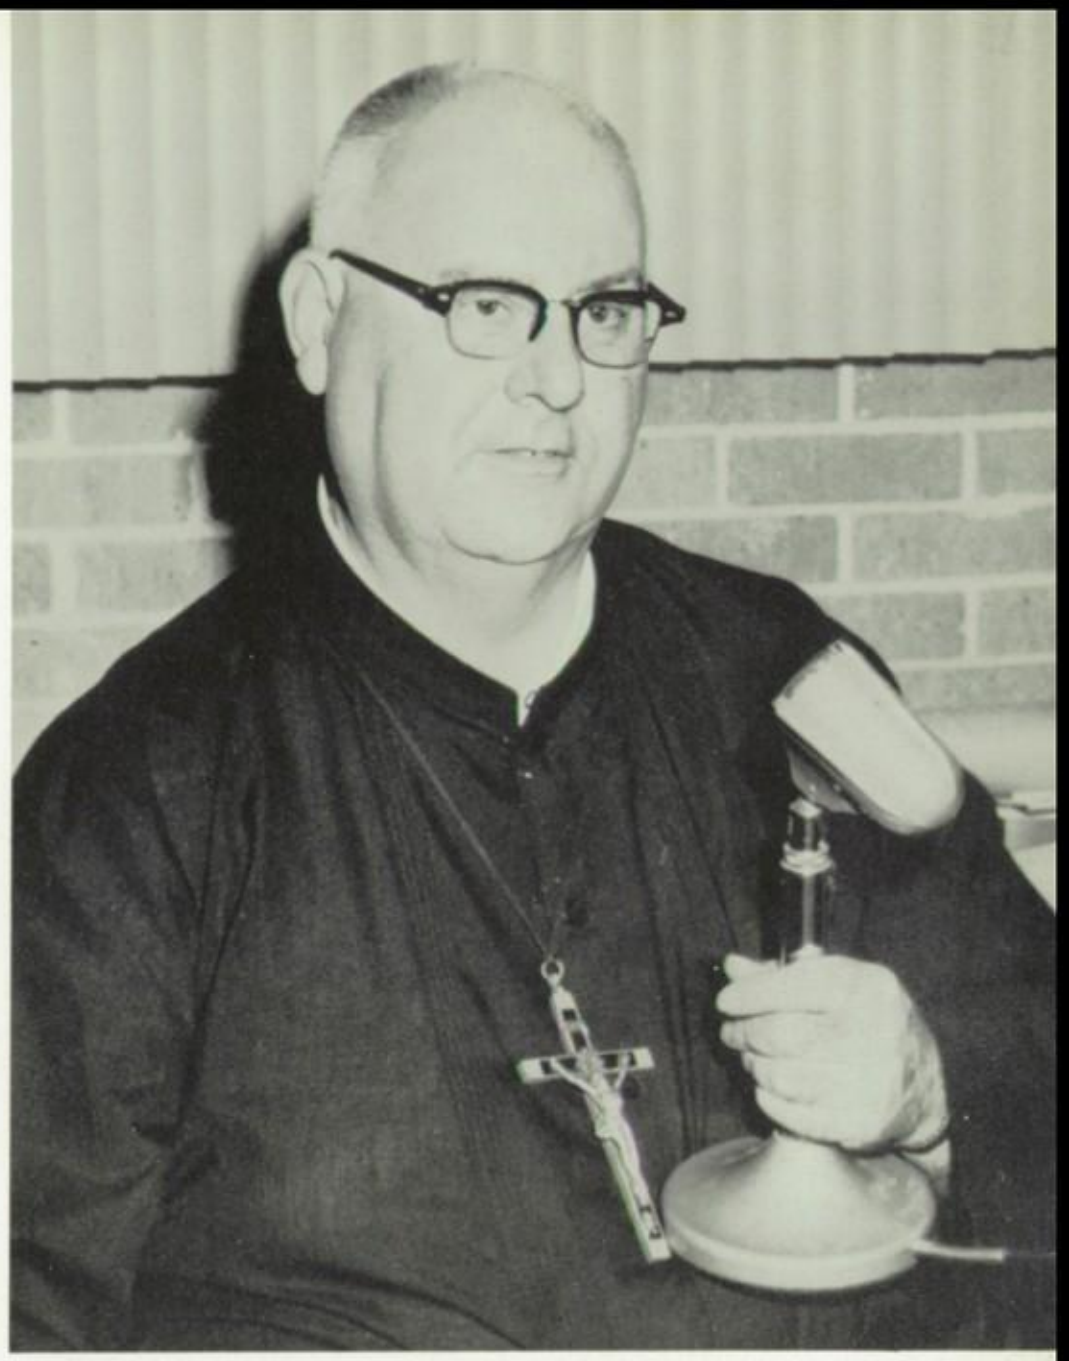
Our Principal

BROTHER CAROL, during '64, displayed that dynamic leadership that has made him a successful principal for many years.

Through his personal efforts Catholic High has a new gym now instead of just plans to build one. Although he would have liked it larger, with more accommodations for physical education classes; the gym is, nevertheless, the largest high school gym in Baton Rouge.

Moderating the Beta Club has always been one of Bro. Carol's favorite duties. He's especially proud when he can point to so many outstanding young athletes who are also outstanding students.



Coach Ruiz, Bro. Carol, and Bro. Philip admire the Istrouma victory cake.

Crowning four years of scholastic effort with outstanding performances in every field of school life, the seniors led the student body to a very successful year.

GRADUATES

Seniors contributed much scholastically, athletically, and socially. Many twelfth graders maintained honor roll status throughout the whole year. The class of '64 can proudly boast of all-district athletes in football, basketball, track, and baseball. Socially, the senior prom was the event of the year.

Three hundred and eighty-five underclassmen make up the bulk of the C.H.S. student body. One hundred and twenty-seven juniors, one hundred-fifteen sophomores, and one hundred-forty-three freshmen chipped in to make the school year a success.

CLASSES

All student activities drew large numbers out to see the Golden Bears or to attend some school organization. The greatest single endeavor by a class was the talent show staged by Junior A.

While many wouldn't mind school except for the subjects; it still appears that education is the reason d'etre for C.H.S.

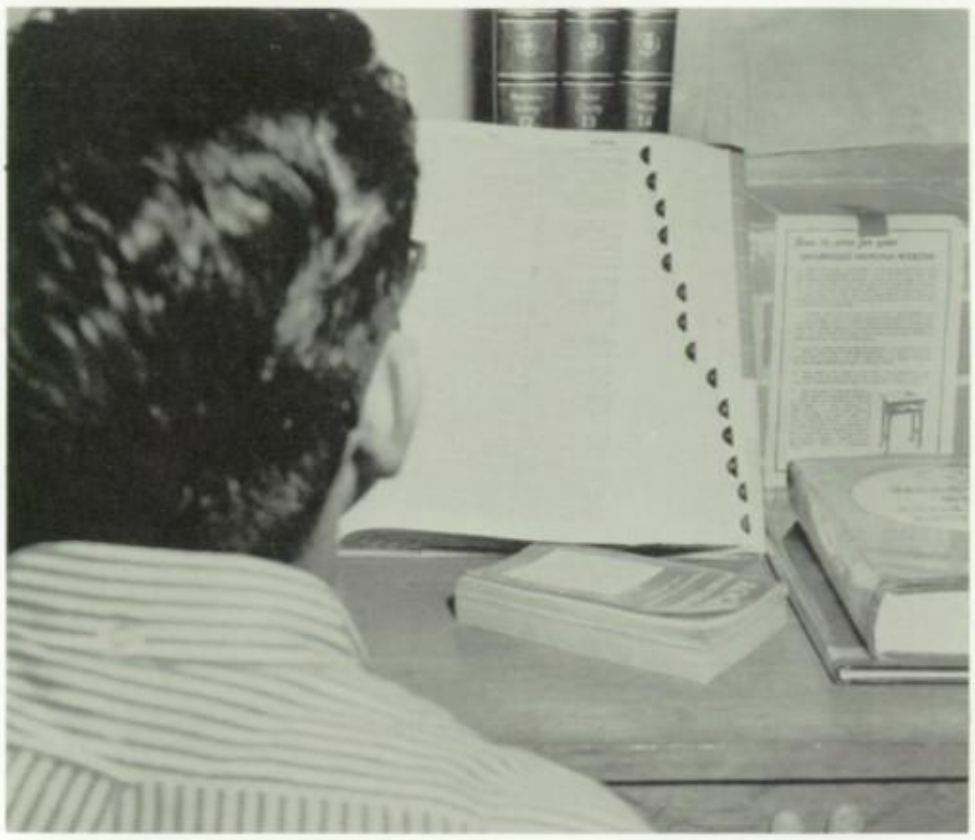
Academic and commercial courses are both taught as college preparatory courses. The academic courses include four years of science, emphasizing higher math. The commercial course includes: typing, business law and bookkeeping.

ACADEMICS

Religion

RELIGION

Juvenile as well as adult delinquency can be combatted effectively only by giving purpose to each individual's life. One must know what life is, where he is headed, and how he will get there. The complete answer to these questions can be had only through Faith. Putting this faith into action becomes the job of our life. Learning the truths of our Faith is the job of our Religion class.

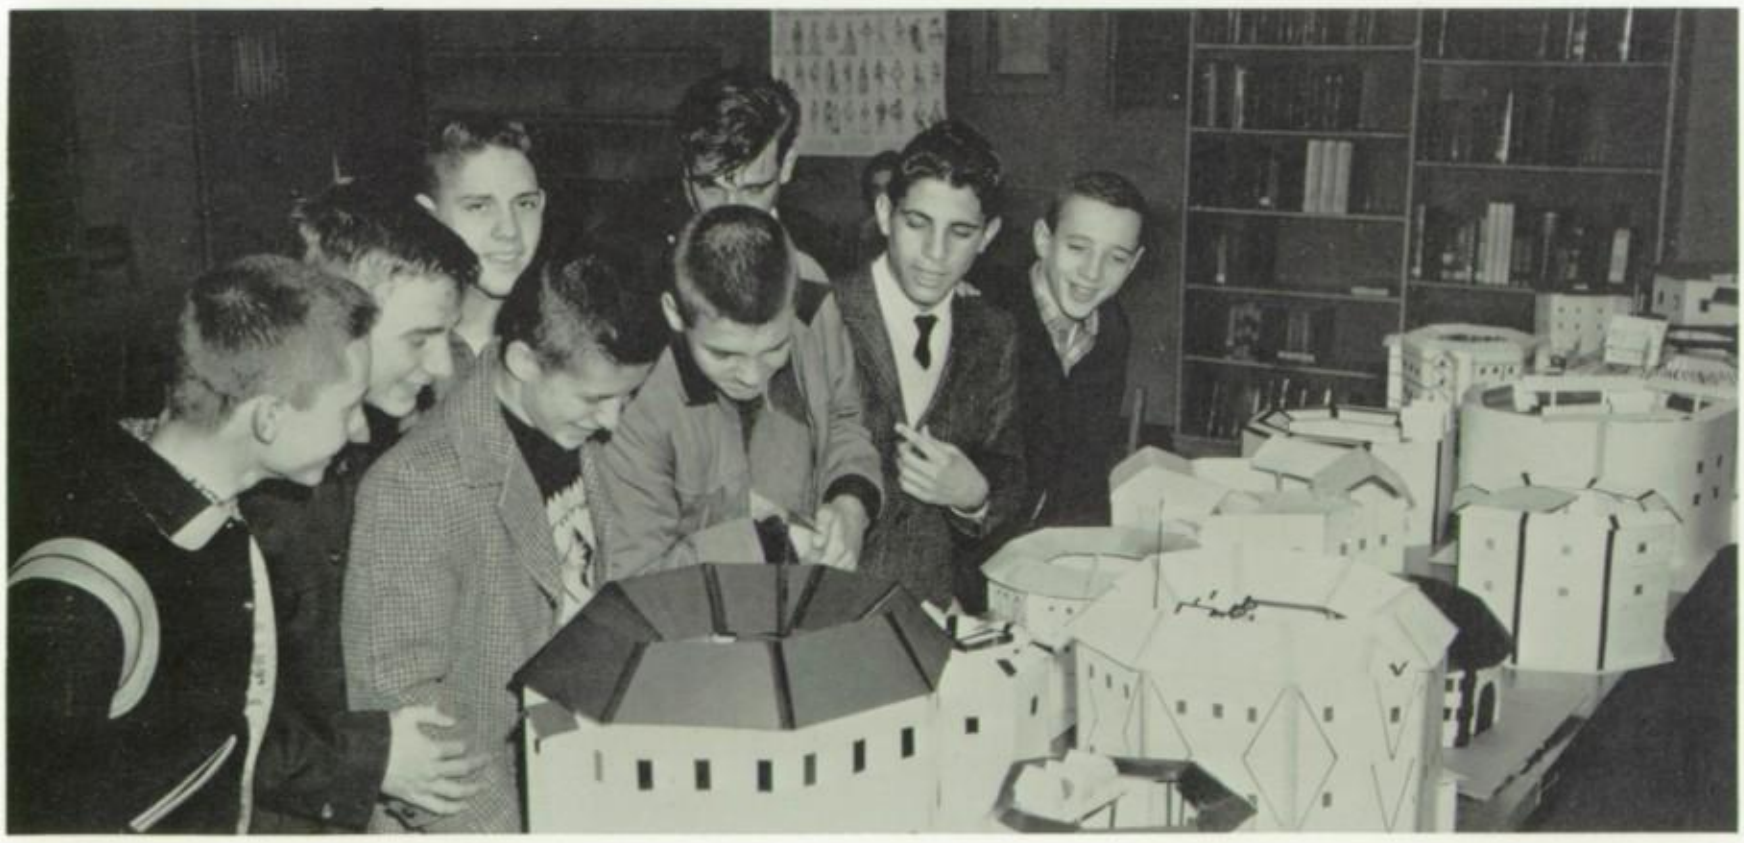


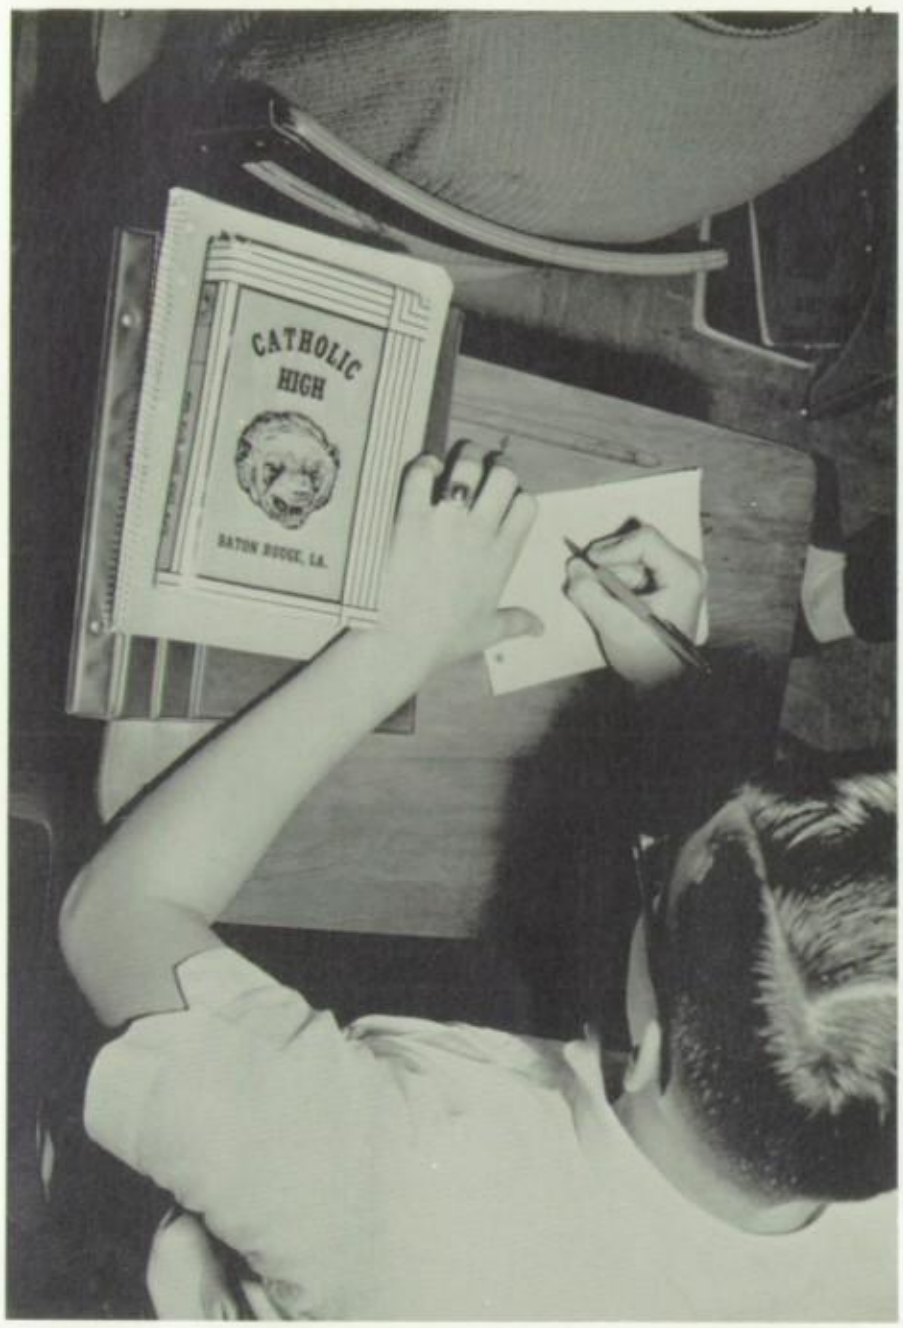
ENGLISH

Training in basic English is necessary for college work. Grammar is common to all four years, as is the study of English and American literature. Through these a student gains a command of the English language and an appreciation of the masterpieces of literature. In making these courses even more practical the teachers strive to instill critical attitudes with respect to entertainment.

Students are often called upon to express themselves in descriptive and expository writing as well as in essays and orally in speeches.

English





MATHEMATICS

Higher mathematics is an effective introduction to logical thinking and provides training in neatness, order, and diligence. However, practical reasons are not necessarily the most important reasons for studying higher math. Some study mathematics for the intellectual satisfaction received in the solution of difficult problems.

Many students are attracted by the informative courses of math. Pupils preparing for college struggle through algebra and plane geometry before tackling advanced algebra, solid geometry, trig and calculus. The interest shown in these courses is a clear indication that students realize the importance of math in the modern world.

Mathematics

Science

SCIENCE

Interest in science courses has doubled. More than two-thirds of the student body are taking a science course this year. Seventy percent of these will take four years of science before graduation.

Physics with its problems in measuring forces is the meat of the seniors. Last year as juniors they sank their teeth into the task of learning the fundamentals of atomic structure in chemistry. As sophomores some had biology which gave them a closer look at life. In their first year in high school all took general science which acted as a preface to higher scientific study.

Through these studies many graduates are encouraged to enter higher scientific studies.

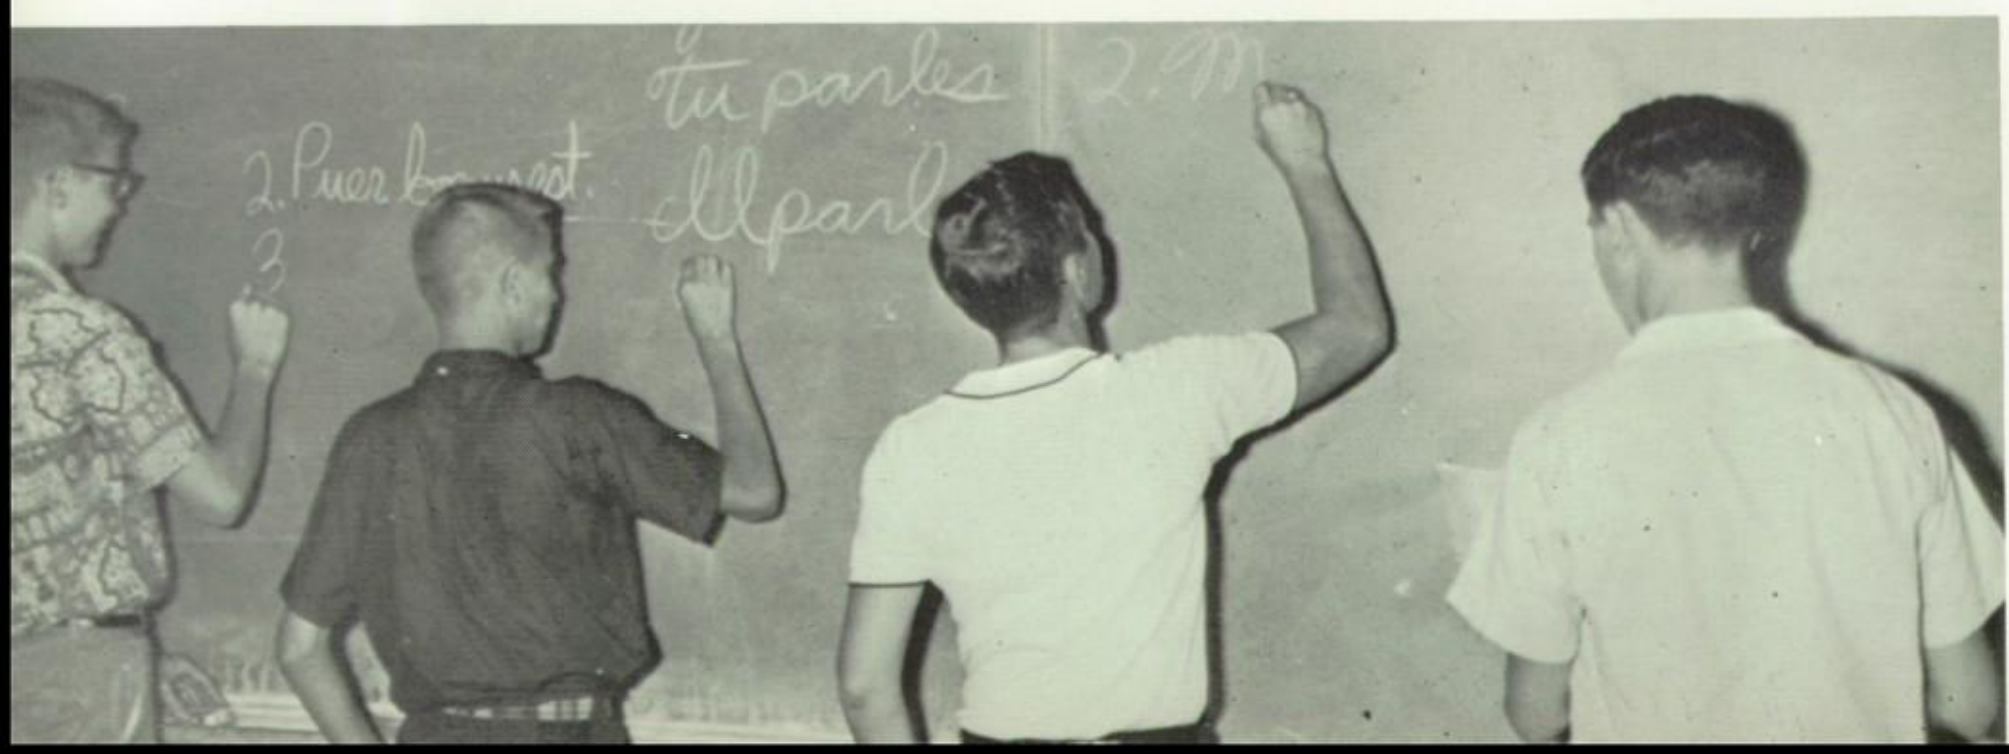
Languages

LANGUAGES

Two years of foreign language are compulsory for all academic students at Catholic High. Sophomores choose between French and Latin.

Conversational French is stressed but only after the student has mastered the mechanics of grammar and form. In French II, a specially recorded series of lessons are used to sharpen the student's "French ear."

Latin demands great concentration and thus the student is conditioned for greater learning in all fields.



Social Studies

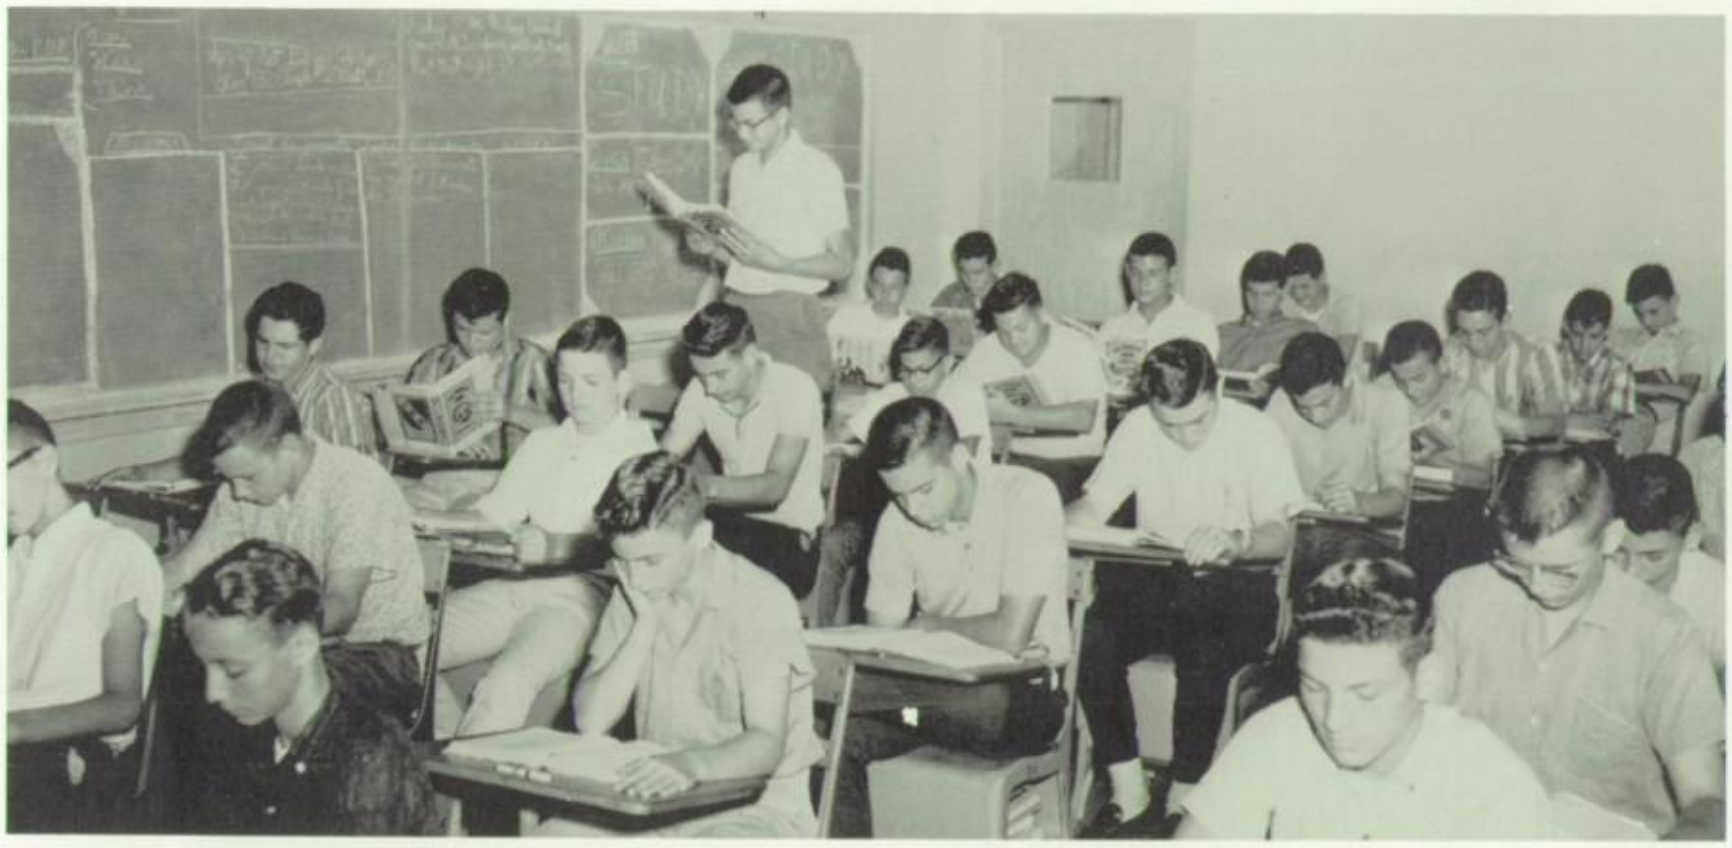
SOCIAL STUDIES

To make use of our cherished liberty, especially in the act of voting we must have knowledge of government. Such knowledge is gained through the study of Civics. How this knowledge was used by our ancestors in their struggles to found and develop our nation is studied in the United States History course.

To really appreciate our democratic form of government all we need do is compare it with others. Our world history course gives us the basic knowledge for such comparisons. The study of Communism shows us the false principles upon which this inhuman form of government is based.

In general our studies make us appreciate our American heritage and what we must do if we are to preserve that heritage for our posterity.

Business Administration



BUSINESS ADMINISTRATION

Business is the keystone of our national life. The interdependence that exists between our business activities and our social and political problems is an outstanding characteristic of twentieth century living. With this in mind, juniors and seniors strive for an understanding of business practices through the study of General Business. Acquiring a basic background for the further study of business courses and improving their arithmetical skills are the benefits of the course.

Business Law is undertaken by juniors in order that they might meet the complex conditions of today's life and know the legal meaning of the conditions. Thus, students leave prepared for the business world.

Don Contine and Ronnie Richard exercise on the isometric bar while other Freshmen await their turn.

PHYSICAL EDUCATION

At C.H.S. students are given the opportunity not only to develop intellectually but also physically.

Through participation in seasonal sports the student acquires skill in games which will afford him hours of recreation on and off campus.

At the onset of a particular game the student is acquainted with the rules, techniques and etiquette of the sport.

Physical education, thus is not only a healthful outlet for excess energy, but is also highly important in the development of coordination and self-control.

Physical Education

During P.E. there is always a hot game of handball on the courts.

Highlighting the '64 football campaign was the 15-12 victory over the much tooted Istrouma Indians. While many seniors played key roles in this victory; juniors, sophomores, and freshmen alike pledged that such a victory will be an annual event at CHS.

Catholic High was second in the State in both golf and tennis. Seniors contributed greatly to all victories, but many outstanding juniors and sophomores make CHS prospects bright.

CLUBS

Catholic High's chapter of the Catholic Student Mission Crusade was judged the most active organization in the school this year. Sponsoring nearly twice as many activities as the average club won them this honor.

Key Clubbers finished another successful year, being judged 4th in the LaMissTenn district.

The two parent organizations also boast of very successful years. Both the Mothers' Club Fair and the Men's Club Chicken Dinner were the biggest yet.

THE HEALTH TWINS

KLEINPETER'S GOLDEN GUERNSEY MILK

A naturally richer milk—from Guernsey herds, the result of centuries of breeding. Kleinpeter's contains more proteins, Vitamin A, non-fat solids, and nutritive energy than regular milk. And it has a richer color, a richer taste.

KLEINPETER'S GURN-Z-GOLD MILK

Skimmed Golden Guernsey

Kleinpeter's Gurn-Z-Gold, with most of the butterfat removed, contains fewer calories than Golden Guernsey—but it gives you Golden Guernsey's "plus" health qualities. For Gurn-Z-Gold **is** Golden Guernsey— skimmed!
